OF

NEWMARKET, N. H.,

FOR THE

Fiscal Year Ending February 15, 1916.

NEWMARKET, N. H.:
THE NEWMARKET ADVERTISER PRESS,
1916.

STATE OF NEW HAMPSHIRE.

To the inhabitants of the Town of Newmarket who are qualified to vote in Town affairs:

You are hereby notified to meet at the Town House, in said town, on the second Tuesday of March next, at ten o'clock in the forenoon, to act on the following subjects:

Art. 1. To choose all necessary town officers and agents for the ensuing year.

Art. 2. To see if the town will vote to pay each member of the fire department twenty-two dollars in addition to that required by law.

Art. 3. To see what sums of money the town will vote to raise and appropriate for rebuilding or repairing the Packer's Falls bridge and abutments.

Art. 4. To see if the town will vote to sprinkle or oil the streets during the summer of 1916, and appropriate a sufficient sum therefor.

Art. 5. To see if the town will vote to enlarge the bridges or culverts over Falls Brook, in the highways at the foot of Mill Hill and Lamprey Sts.

Art. 6. To see if the town will vote to accept or adopt the provisions of Chapter 29 of the laws of 1899 and the amendments thereto, being an act in amendment of and in addition to Chapter 73 of the Public Statutes, relating to the repairs of highways in towns.

Art. 7. To see if the town will vote to extend the water system from the corner of Ham street, so called, near the residence of Ovias Rodier, to the right of way near the former residence of Timothy M. Joy, and raise and appropriate a sum of money therefor.

Art. 8. To see if the town will vote to change the grade of the road on Young's Hill, so called, on the road from Newmarket to Epping, by cutting down the brow of the hill, and to raise and appropriate money to carry out said change.

Art. 9. To raise such sums of money as may be necessary for the state and county taxes; to build and repair highways and bridges; to provide means for the extinguishment of fires; to the support of schools; to maintain the Public Library; to decorate the graves of soldiers; to care for and keep up the cemetery; to light the public streets and buildings; to pay the town officers; to support the poor; to pay bonds and interest on the town debt and to defray all other charges arising within said town.

Art. 10. To see what sums of money the town will vote to raise and appropriate to be expended under the direction of the Civic Department of the Woman's Club for keeping the streets clean of refuse.

Art. 11. To see what sums of money the town will vote to raise and appropriate for band concerts during the ensuing summer.

Art. 12. To see if the town will vote to put a sidewalk between the Town Hall and the Congregational Church.

Art. 13. To see if the town will vote to provide some method of prompt response by the Fire Department to fire alarms from the farming portions of the town.

Art. 14. To see if the town will vote to place one or more street lights near "Moonlight" bridge, so called.

Art. 15. To see what action the town will take in relation to the extension of a water pipe from the main pipe through Water Street, a distance of about one hundred and fifty feet, and raise and appropriate a certain sum of money therefor.

Art. 16. To transact any other business that may lawfully come before said meeting.

Given under our hands and seals this twenty-sixth day of February, 1916, at said Newmarket.

DIRECTIONS FOR RINGING IN AN ALARM.

When a fire breaks out the person discovering it should immediately run to the box *nearest the fire*, break the glass in the front of the small key box which is on the side of the fire alarm box, take out the key, which is attached to a chain, unlock the fire alarm box, open the door and pull down the hook *as far as it will go*, then let go the hook. Stand by box to direct the firemen. Don't pull in an alarm for a fire seen at a distance or out of reach of the hydrant system, but notify some member of the department, who will give the proper alarm.

FIRE DEPARTMENT SIGNALS.

Second alarm, 8 blows, for reserve apparatus and call firemen.

2 blows after fire alarm indicates fire all out.

2-2-2. Brush fire. Report to the Fire Warden at Station 1.

SCHOOL DEPARTMENT.

REPORT OF SCHOOL BOARD.

The report of the Superintendent gives the statistical information required by law.

In accordance with the law, approved March 10, 1909, requiring the School Board to submit estimates relative to statutory requirements, to be raised by the Selectmen in their annual assessment of taxes, the Board submits the following:

For text books and scholars' supplies, $600.00.

We note with satisfaction the improved condition of our schools during the past year.

MICHAEL B. GRIFFIN,
ERNEST P. PINKHAM,
FRANK H. DURGIN,
School Board of Newmarket.

REPORT OF SUPERINTENDENT.

NEWMARKET, N. H., Feb. 15, 1916.

TO THE HONORABLE SCHOOL BOARD OF NEWMARKET:

Gentlemen: I have the honor to submit to you herewith and through you to the people of Newmarket my second annual report as superintendent of your schools, such being in a series of similar reports the thirteenth, since you first adopted the district supervisory plan.

Since my last report you have been very fortunate in having but two changes in our teaching force; Mr. Smith resigned during the summer after three years of service to accept a superintendency in Vermont. Miss Dacy, who had served the district for an equally long period, resigned during the summer vacation to accept a school nearer her home. Both were highly esteemed for their services and Mr. Smith will be much missed in the life of the community. I feel, however, you have been especially fortunate in securing Mr. Uniack for the High School, and Miss Pickering for the rural school.

In September the enrollment in your schools, as tabulated, totaled 380, and are distributed as follows: Grade I., 78; II., 37; III., 34; IV., 40; V., 39; VI., 27; VII., 33; VIII., 24; High School, 45; Rural, 23.

The per cent. of your entire school enrollment in the high school is low compared with the rest of the state. The new Hampshire School Report of 1913-1914 shows that for an

average throughout the state that seventeen per cent. of the pupils enrolled in the public schools are in the secondary schools. To meet this general average for the state our High School should have an enrollment of sixty pupils; besides, the districts which have parochial schools show to an advantage over districts which have not, for the reason that such schools withdraw from the public schools an element less likely to enter secondary schools. If this be the case, our High School ought even to considerably exceed sixty pupils.

Taking into consideration this fact, and also the close proximity of the New Hampshire State College, we should naturally expect to find a better showing, and we should look for it in the near future. I suppose that it is characteristic of human nature to fail to appreciate blessings for which it has had to make no sacrifice. It would seem that the youth of Newmarket and their parents do not fully realize the especial advantages of being in such easy access to our State College, where with so little sacrifice on their part they may obtain a college education of exceptional value, whether measured with a practical or cultural yard-stick. Let it also be remembered that a diploma of the Newmarket High School admits students into this institution without examinations, but does not carry with it any guarantee that the holder will prove equal to the new tasks. As the first year of the secondary school is a time for weeding out many who have not the ability, inclination, or determination necessary for successfully completing a secondary course, so the first year of the college always is a time for continuing the thinning process. The failures in the secondary school cannot, as a matter of course, be laid to the door of the elementary school, nor can the failures in the college even to the same extent be charged up against the high school. This is especially true in the case of an institution like the New Hampshire College where the work the first year differentiates to such an extent from the secondary programme. In a college of this kind native

ability with a determination to succeed in spite of hard work counts for far more than a little higher attainment in academic subjects.

It is hoped that the voters of the district will be generous at the next annual meeting of the district in their appropriations for repairs. There is need of a considerable outlay on the high school building; the toilet accommodations are at present intolerable and liable at any time to be condemned by the health authorities. It is surely incumbent upon the district to attend to this matter this year. The installing of sanitary closets will necessitate some changes in the heating apparatus, which is not even now satisfactory. The desks in all the rooms of this building are antiquated, unhygienic, and in bad repair. The floor is that which was originally laid and is badly worn. There is no accommodation for teaching Chemistry. The windows are without proper shades and the walls and ceiling sadly need attention. Without doubt it would be an economy for the district to make all the needed repairs on this building at one time rather than by piecemeal, extended over a series of years, even if it is better to settle the bill by deferred payments. I wish to submit this matter for the serious consideration of the Board and the District.

In my report a year ago, I brought to your attention for consideration the advisability of adopting the provisions of the statute relating to medical inspection in public schools. I am still of the opinion that such a step would result in much good for the children of Newmarket.

Permit me to extend to you my grateful appreciation for the considerate treatment I have received at your hands during the past year.

Respectfully submitted,

LOUIS DEWITT RECORD,

Superintendent of Schools.

PUBLIC LIBRARY.

REPORT OF TRUSTEES.

The work of the Library has progressed smoothly during the year. Fifteen thousand volumes have been put in circulation, an average of 300 per week; 476 books have been added. Of these, 44 were presented by Mrs. Weil of N. Y.; "Messages and Papers of the President," in ten handsomely bound volumes, by Miss M. G. Eaton of Holyoke, Mass., and one, "Some Aspects of the War," by Henry D. Martin. We have purchased the latest International Directory, and "The Book of Knowledge," a modern Enclycopedia in twenty volumes, and a directory holder and revolving book case that contains both. The magazine rack, gift of the Newmarket Manufacturing Co., has been placed in position. On request of the Polish residents, some Polish books were ordered and 21 volumes received. These came in paper covers and are now at the bindery. Foreign books are not now imported, on account of the war.

At the suggestion of the Woman's Club, the reading room was opened on Tuesday, Thursday and Friday evenings of May and June, and was so well patronized that it was again opened in November, and the regular work of receiving and delivering books continued on those evenings. Since the addition of the phonograph, presented by Mr. Gallant, attendance has greatly increased, from 40 to 125 children and young people being present in an evening. The Camp Fire Girls have contributed picture books and games for the children. Games and picture puzzles have also been given by the Woman's Club.

We feel that John Webster Hall is now being used according to the intention of the donor as never before.
